## Summary

---

Full Stack Software Engineer with experience designing, developing, and maintaining web applications using Angular, React, Next.js, Node.js, and RESTful APIs. Strong background in building scalable frontend components, backend services, and database-driven applications. Hands-on experience with Agile development, API integration, authentication, and enterprise application support. Proficient in writing clean, maintainable code with a strong understanding of SDLC, MVC architecture, and modern web development practices.

## Technical Skills

---

**Frontend:** Angular, React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, ASP.NET Core, RESTful APIs

**Databases:** PostgreSQL, SQL Server, DynamoDB

**Cloud & DevOps Exposure:** AWS (EC2, S3 – basic), CI/CD concepts, Git-based workflows

**Concepts:** Full Stack Development, API Design, MVC Architecture, OOP, SDLC, Agile/Scrum

**Tools:** Git, Postman, VS Code, Visual Studio, IntelliJ IDEA, Node-RED

## Professional Experience

---

**Software Engineer**, NearTekPod, Trichy

Jan 2025 – Present

- Designed and developed full stack web applications using Angular, React, and Next.js.
- Developed backend services using Node.js and REST APIs for business workflows.

**Associate A2**, Capgemini Technology India Limited, Trichy

Feb 2024 – Dec 2024

- Supported large-scale enterprise insurance and billing applications in production.

## Projects

---

**RekrutPro – AI-Powered Recruitment & ATS**

2025

**Tech:** Next.js 16, React, TypeScript, Node.js, AWS (DynamoDB, S3), OpenAI, Gemini, LangChain

- Developed an AI-driven recruitment and applicant tracking system automating candidate sourcing, screening, and interviews.
- Built real-time analytics dashboards using Recharts to visualize job pipelines, candidate status, and team workload.
- Implemented a Kanban-based task management module with drag-and-drop, priorities, and job associations.
- Integrated AI-powered resume scoring and candidate matching using OpenAI/Gemini via LangChain.
- Designed a secure token-based AI interview module with real-time chat and session management.

**Membership Enrollment & Management System (PTS-App)**

2025

**Role:** Full Stack Developer

**Tech:** Next.js (App Router), React, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Sequelize, Axios, JWT

- Developed a full stack membership enrollment platform to manage customer profiles, identifications, memberships, and contact data.
- Built a high-performance frontend using Next.js App Router and TypeScript with responsive, modern UI components.
- Implemented dynamic multi-step enrollment forms handling nested data structures with real-time validation and state management.
- Integrated secure RESTful APIs using Axios for CRM synchronization, data transformation, and error handling.

- Designed secure authentication and session management using JWT and encrypted credentials.
- Modeled and managed relational data using PostgreSQL with Sequelize ORM to ensure data integrity.

### **Simplifai – Leave & Employee Management System**

2024

**Tech:** React, Node-RED, REST APIs

- Built a full stack application supporting leave requests and approval workflows.
- Implemented role-based access control and modular backend services.
- Improved maintainability through clean code practices and reusable components.

### **Education**

---

**Master of Computer Applications (MCA)** — Holy Cross College

2021 – 2023

*Percentage: 80%*

**B.Voc Information Technology** — Bishop Heber College

2018 – 2021

*Percentage: 81%*
