Passionate and skilled Full Stack Developer with experience delivering impactful solutions. Adapt at frontend and backend development, learning new technologies, and driving innovation. Strong communicator and collaborator with excellent multitasking abilities. Committed to contributing to organizational growth through strategic problem-solving, teamwork, and technical expertise.

Professional Experience

Software Engineer Trainee,

- Working as Trainee in NearTekPod, Trichy from Jan 2025.

Associate A2,

- Project at Capgemini Technology India Limited, Trichy from Feb 2024 – Dec 2024.

Educational

- ✓ MCA in Holy Cross College, (80%), 2021 – 2023
- ✓ B VOC IT in Bishop Heber College, (81%), 2018 - 2021

Projects

1) Simplifai – Leave & Employee Management System

Tech: Next.js, Node-RED, JavaScript

Built a full-stack internal tool for managing employee leaves and profiles.

- Implemented leave workflows (apply, approve, reject) with role-based visibility.
- Displayed profile pictures next to tasks using dynamic routing.
- Integrated Node-RED backend flows and REST APIs for seamless UI/backend interaction.
- Enabled secure resume uploads/downloads with role-based access control.
- Built responsive UI components with React and Tailwind CSS.

2) Product Management System

Tech: C#, ADO.NET, SQL Server

A Windows Forms app to view and search products from a SQL database using SqlConnection.

3) Fake Logo Detection Using Artificial Intelligence

Tech: YOLOv8, CNN

Designed an AI system to detect counterfeit logos using YOLOv8 and convolutional neural networks.

4) My Profile - Using Asp .Net

Tech: ASP.NET, HTML, CSS, JS, SQL

Created a personal profile site that stores educational details and collects feedback using SQL parameters.

Certification Courses

- ✓ Dot Net Full Stack Developer Course, Aug 2024 – Jan 2024.
- ✓ Core Java
- ✓ Big Data – NPTEL
- ✓ Emotional Intelligence - NPTEL

Core Competencies

Problem Solving	Brilliant problem-solving and decision-making skills, Creative Skill, Critical thinking skills
Front End Development	HTML, CSS, JAVA SCRIPT, TYPE SCRIPT, ANGULAR, Next.js
Back End Development	C#, ADO .NET, ASP .NET, CORE JAVA, Node-RED
Software Design	Extensive knowledge of software design and experience

Publications

A Comparative Study of Object Recognition Algorithm

Object Detecting have several techniques like R-CNN, fast R- CNN, YOLOv2, YOLO V3, etc.
